Re: General Notice Letter and Invitation to Informational Meeting
Waste Disposal, Inc. Superfund Site
Santa Fe Springs, California

Dear Mr. Stonecutter:

The United States Environmental Protection Agency ("EPA") is spending public funds to investigate and control releases or potential releases of hazardous substances, pollutants or contaminants at the Waste Disposal, Inc. Superfund Site ("Site"), in Santa Fe Springs, California. Under Sections 106(a) and 107(a) of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), commonly known as Superfund, Potentially Responsible Parties ("PRPs") may be required to perform cleanup actions to protect the public health, welfare, or the environment. PRPs may also be responsible for all costs incurred by EPA in responding to any release or threatened release at the Site. PRPs include current and former owners and operators of facilities at which hazardous substances were disposed of, persons who arranged for the disposal of hazardous substances at a facility ("generators"), and persons who accepted hazardous substances for transport to a facility ("transporters"). The purpose of this letter is to inform you that EPA considers your company to be a PRP at the Site.
